

**Department of Chemical Engineering and Biotechnology**

**ALUMNI SPEAKER SERIES LAUNCH**

**Friday 29 October 2010, 5.00 pm**

Lecture Theatre 1, Shell Building  
New Museums Site, Pembroke Street

**Chris Hodrien, MA**  
**Chemical Engineer Class of 1973**

***'A Lifetime in Gas Industry Technology'***

Chris's R&D activities in British Gas and Advantica plc have spanned an unusually broad range of topics across the whole of the gas 'value chain', from the gas field to the end-user gas utilisation technologies. These include: gas production by gasification, power generation (at scales from domestic to power station), CHP (cogeneration), industrial gas use, fuel cells, chemicals production, gas purification, Carbon Capture & Storage (CCS), gas storage and gas hydrates. His teams specialised in computer-aided flowsheeting.

Department alumni, academics and students are invited to attend the talk followed by a networking session over drinks and nibbles.

This event is free but advance registration is required on [www.ceb.cam.ac.uk/pages/alumni-speaker-series.html](http://www.ceb.cam.ac.uk/pages/alumni-speaker-series.html), or e-mail [alumni@ceb.cam.ac.uk](mailto:alumni@ceb.cam.ac.uk) / call on 01223 762587 to register your interest.
